WORK EXPERIENCE

Associate Software Engineer

Goldman Sachs

01/2024 - Present

Hyderabad

Analyst Software Engineer

Goldman Sachs

08/2024 - 12/2024

Hyderabad

Asset Secured Lending

Tasks

- Working on **enhancing data quality and reporting efficiency** in the Asset Secured Lending space by automating data processes and migrating to authoritative data sources, improving timeliness, accuracy, and completeness of final reports.

Software Engineer

Societe Generale Global Solution Centre

06/2022 - 07/2024

Global Payment Engine

Tasks

- Developed **RESTful APIs** using **Spring Boot**, **JPA**, **Hibernate**, **JDBC Template**, and **Oracle** for the backend. Utilized **React.js** for the frontend UI.
- Developed **Spring Batch** processes and contributed to the **transition of financial messages** from MT to ISO 20022 MX (XML) messages.
- Led **Spring Batch** development for regional data extraction and storage in **DataVault**, enhancing disaster recovery capabilities.
- Experience in **Junit testing**, **SonarQube**, **Sonar lint**, **Git**, **Autosys**.
- Developed a **e2e testing tool** using the **Cypress framework**, which significantly improved the efficiency of regression testing saving **4 man days** in each release.

Software Engineer Intern

Societe Generale Global Solution Centre

01/2022 - 06/2022

ISO message comparator tool

Tasks

- **Developed** a standalone application that will provide a summarised report highlighting all the differences and missing entries in the ISO messages compared using **Nodejs**.

SKILLS

Springboot

Microservices

REST

Node

React
